

BRIGHT SPOTS FOR OUR ENVIRONMENT

There is still a lot to improve,
yet there are also actions
to be praised:

BIODIVERSITY

Biological crisis = worldwide

But: positive results through specific
national protection programs

-  beaver
-  tree frog
-  little owl

MOBILITY

March 2020 :

First country in the world
to offer free public
transport for all

NATURE CONSERVATION

75%

Nature conservation syndicat
or nature park

→ more trees, hedges & flower strips than 25 years ago

Nature reserve Natura2000:

27%

18%

*Where
do you
contribute?*

CLIMATE PROTECTION

Climate Pact (since 2012):
All municipalities have committed themselves

Financial support from the government
for climate-friendly measures

PESTICIDE-FREE

2016 Using pesticides is prohibited
by law in the public domain

2021 First European country to
ban the use of glyphosate

DRINKING WATER

Tap water
= the most strictly
controlled food of all time
